Senior Life Solutions

Senior Life Solutions at Mercy in Centerville will offer an intensive, comprehensive, multi-disciplinary outpatient treatment program for persons 65 and older focusing on depression, anxiety, and behavioral health disorders; problems that affect a large segment of the community. Senior Life Solutions will provide an alternative for patients not requiring 24hour in-patient hospitalizations, the program offers an option for patients who need more than traditional outpatient therapy services and will support inpatient area facilities by acting as a bridge or step-down unit to those programs. Senior Life Solutions will benefit older adults in Appanoose County and the surrounding area by treating age related problems such as grief, declining health, and loss of independence.

Southeast Iowa Case Management

It is the mission of Southeast Iowa Case Management, (SICM) to assist MH/ID/DD/BI individuals in achieving their greatest potential and to maximize their quality of life. SICM promotes consumer driven services based upon the person's strengths and needs and will assist individuals in the process of increasing independence in settings that are least restrictive, age appropriate, and integrated into the community. Case Managers will inform individuals of their rights and responsibilities as citizens, investigate an array of funding options and encourage the use of natural supports in the individual's community.

Mercy Medical Care Long Term Care

Mercy Medical Center operates a 20 bed long term care (nursing home) unit at the hospital. The nursing home of choice in the area, all rooms are private and residents are cared for in a family centered, home like environment. Daily activities are coordinated by our activities director. Special entertainment is often performed by community volunteers, and weekly beauty shop and barber services are provided. The unit currently has a waiting list, and potential residents are invited to make application to be placed on the waiting list.

SIM (State Innovation Model)

For Appanoose, Clarke, Decatur, Lucas, Marion, Monroe, Ringgold, & Wayne Counties

Iowa will use the SIM grant to implement and evaluate a sustainable health care delivery and payment system that will improve population health, improve patient care, and bend health care cost trends.

Through the SIM program, Iowa will align and equip communities to address population needs by collaborating with payers, providers and public health entities. The SIM Test aligns Iowa payers in payment reform that focuses on value; equips Iowa providers with tools to perform in value based, population focused models; and aligns and integrates public health strategies into how health care is delivered. Together, these approaches ensure a robust, statewide transformation to achieve Iowa's SIM vision, "Transforming Health Care to Improve the Health of Iowans". -Marion County Public Health Department manages this grant for Wayne County and the other counties listed.
